

With Which Is Consolidated
The "Colliery Engineer" and "Mines and Minerals"

INDEX TO VOLUME 58 January to December, 1953

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. The subject matter of editorials will be found classified under the subject with which they deal and marked (e.). Many titles of articles are abbreviated, the aim being to give prominence to important words.
